

MINOR PROJECT

SIDE TABLE

A side table is a style of long, low table which is designed to be placed in front of (or next to) a sofa or chair to support magazines, books decorative objects, and other small items to be used while sitting, such as beverage coasters.

There are three levels where you can keep your books, glass, mobile, water bottle etc. In some situations, such as during a party, plates of food may be placed on the table.
