## QUESTION BANK

QP 1769

SUBJECT: CHILD HEALTH NURSING

<b>SR. NO.</b>	<b>QUESTIONS</b>
<b>UNIT-I- MODERN CONCEPTS OF CHILDCARE</b>	
<b>SHORT ESSAYS</b>	
1.	Explain the physiological differences between adult and a child.
2.	Explain the role of a nurse in pre-operative care of child and family.
3.	Explain the role of a nurse in post-operative care of child and family.
4.	Describe the role of a nurse in caring for a hospitalized child.
5.	What is meant by Under- Five mortality and morbidity rates? Write the formula to calculate mortality rate and morbidity rates of Under- Five.
6.	List the National Nutritional Programmes for the health and welfare of children and Explain any two.
7.	Describe the role of a paediatric nurse in caring for a hospitalized child.
8.	Explain the role of a nurse in care of a child in incubator.
9.	What is meant by grief? Explain the types of grief.
10.	Explain the indications of Naso-gastric tube feeding and care of a child with Naso-gastric tube.
11.	List the methods of urine specimen collection and Explain any one method of collection of urine specimen.
12.	Explain the devices used for oxygen administration.
13.	List the indications for Exchange Transfusion and explain the role of a nurse in caring for a child with exchange transfusion.
14.	Define restraints. List the types and explain the hazards of restraints.
15.	List internationally accepted rights of the children
16.	Enumerate the differences between adult and children in relation to endocrine and neurological system
17.	Describe national policy for children
18.	Explain the special laws in relation to child health and welfare
19.	Explain the impact of hospitalization on child and family.
20.	Describe the causes of accidents in children and its prevention.
21.	Explain national polio eradication programs in India.
22.	Explain national anemia control program for children in India.
23.	Explain Juvenile Justice Act
24.	Describe the modern concept of child care in relation to preventive, promotive and curative aspect of health.
25.	Describe the responsibilities of a pediatric nurse in minimizing the impact of hospitalization on child and family.
26.	Explain the national child welfare agencies.
27.	Describe the physical environment for a sick child in pediatric ward.
28.	Describe recent trends in care of the children.

**THIRD YEAR BASIC B.SC (N)**

**QUESTION BANK**

**QP 1769**

**SUBJECT: CHILD HEALTH NURSING**

**UNIT-I - MODERN CONCEPTS OF CHILDCARE**

**SHORT ANSWERS**

<b>1.</b>	What is child mortality rate?
<b>2.</b>	What is child morbidity rate?
<b>3.</b>	List the side-effects of phototherapy.
<b>4.</b>	List the stages of Grief.
<b>5.</b>	List four causes of perinatal death
<b>6.</b>	Differentiate between grief and bereavement
<b>7.</b>	List four causes of under-five mortality.
<b>8.</b>	Mention the stages of grief.

**SUBJECT: CHILD HEALTH NURSING**

### **UNIT-II - THE HEALTHY CHILD**

#### **SHORT ESSAYS**

<b>1.</b>	Write in detail regarding physiological, psychosocial, sexual and moral development of a toddler.	
<b>2.</b>	Describe the developmental milestone of adolescence and the psychosocial development in detail.	
<b>3.</b>	Describe the developmental milestone of an infant.	
<b>4.</b>	Explain the parental guidance for preparing a preschool child for schooling	
<b>5.</b>	Explain the nutritional needs of adolescents.	
<b>6.</b>	Describe the concept of baby friendly hospital initiative	
<b>7.</b>	Explain the Freud's psychosexual development stages from infancy to adolescence.	
<b>8.</b>	Describe the psychosocial and psychosexual development of adolescent.	
<b>9.</b>	Explain National Immunization schedule for children.	
<b>10.</b>	Explain the parental guidance for promotion of optimum health of a preschool child	
<b>11.</b>	Explain the benefits of breast feeding.	
<b>12.</b>	Explain principles for complementary feeding.	

# THIRD YEAR BASIC B.SC (N)

## QUESTION BANK

QP 1769

SUBJECT: CHILD HEALTH NURSING

### UNIT-II - THE HEALTHY CHILD

#### SHORT ANSWERS

1.	Mention the types of play in children.	
2.	List importance of anthropometric assessment	
3.	List the advantages of breast feeding.	
4.	List the types of breast milk.	
5.	What is cold chain?	
6.	Mention the problems associated with artificial feeding	
7.	What is Oedipus complex?	
8.	What is Pentavalent vaccine?	
9.	What is anal stage?	
10.	What is weaning?	
11.	Write the Vitamin A prophylaxis schedule and dose.	
12.	List the common accidents in toddlers.	
13.	List any four optional vaccine recommended for children.	
14.	Mention any two measures to manage temper tantrums.	
15.	What is sibling rivalry?	
16.	Mention the importance of growth chart monitoring.	
17.	What is pulse polio immunization?	
18.	What is exclusive breast feeding?	
19.	Mention the importance of child guidance clinic	
20.	Name the psychosexual stage of adolescent.	
21.	What is Electra complex?	
22.	Define growth and development	
23.	List the Developmental problems of a preschooler.	
24.	List four purposes or reasons for under-five clinics/Well baby clinics.	
25.	List any four principles of growth & development	
26.	Name the causative organisms for four vaccine preventable diseases	
27.	Name four psychosocial problems faced by a toddler.	
28.	What is meant by Parallel play?	
29.	What is meant by Primary dentition?	
30.	What is meant by Thumb sucking?	
31.	Define Supplementary feeding.	
32.	List the Precautions taken while introducing weaning diet in infants.	
33.	What is meant by Sense of industry Vs inferiority?	
34.	Write a note on Phallic stage.	
35.	Write about the Concept of growth	
36.	Write about the Concept of development	

**THIRD YEAR BASIC B.SC (N)**

**QUESTION BANK**

**QP 1769**

**SUBJECT: CHILD HEALTH NURSING**

<b>37.</b>	Describe teething in toddlers.	
<b>38.</b>	List the changes occurring in adolescents before puberty	
<b>39.</b>	What is Embryo?	
<b>40.</b>	Draw the Symbol of under- five clinic.	
<b>41.</b>	Explain the principles to be followed during introduction of weaning diet in infants.	
<b>42.</b>	List the common accidents among the preschooler.	
<b>43.</b>	List the components of prenatal preventive paediatrics	
<b>44.</b>	List the four factors affecting growth and development.	
<b>45.</b>	List the rules for selection of play material	
<b>46.</b>	List the adverse effect of artificial feeding	
<b>47.</b>	List the Scope of services in Integrated Child Development Scheme.	

# THIRD YEAR BASIC B.SC (N)

## QUESTION BANK

QP 1769

SUBJECT: CHILD HEALTH NURSING

### UNIT-III - NURSING CARE OF A NEONATE

#### SHORT ESSAYS

1.	Write note on Ophthalmia Neonatorum.	
2.	Write about organization of NICU.	
3.	Explain Newborn Assessment.	
4.	Explain the immediate Care of the New born.	
5.	Write in detail regarding Identification & nursing management of common congenital malformations	
6.	Explain the steps Neonatal resuscitation	
7.	Explain Physiological jaundice in detail.	
8.	Write in detail regarding sepsis.	
9.	Explain the components of essential new born care	
10.	Explain care of a new born in incubator.	
11.	Explain the care of new born with Meconium aspiration syndrome.	
12.	Describe the responsibilities of a nurse in prevention and control of infection in NICU.	
13.	Explain the nursing care of a neonate on phototherapy	
14.	Explain the care of new born with respiratory distress syndrome.	
15.	List the minor disorders of new born and explain nursing care of any two.	
16.	Explain Kangaroo mother care.	
17.	Explain the nursing care of a normal new born.	
18.	Explain the care of new born with Hyperbilirubinemia.	
19.	Explain the pre-operative nursing management of an infant with cleft lip and palate.	
20.	Classify and explain the levels of neonatal care services	
21.	Describe the extra uterine adjustment of new born in relation to respiratory and cardiovascular system.	
22.	Explain APGAR score	
23.	List the methods of heat loss in newborn and explain the nursing management.	
24.	Explain the characteristics of a normal new born	
25.	Describe the physical organization and equipments of NICU	
26.	Explain the nursing care of low birth weight baby	
27.	Explain any five new born reflexes	
28.	Explain the immediate nursing care of a normal new born	
29.	Describe the equipments and drugs needed for neonatal resuscitation	
30.	Explain the immediate adjustment of a new born baby	

# THIRD YEAR BASIC B.SC (N)

QP 1769

SUBJECT: CHILD HEALTH NURSING

### UNIT-III - NURSING CARE OF A NEONATE

#### SHORT ANSWERS

1.	Mention two benefits of Kangaroo mother care	
2.	What is Moro reflex?	
3.	What is Babinski reflex?	
4.	Define low birth weight baby.	
5.	List the equipments needed for neonatal resuscitation	
6.	Define Wilm's tumor.	
7.	List four causes of early neonatal death	
8.	Mention four steps in a newborn resuscitation	
9.	Enumerate any four Congenital anomalies of a newborn	
10.	List four modes of heat loss in a newborn	
11.	Define Kangaroo mother care	
12.	List four newborn reflexes in relation to feeding	
13.	What is rooting reflex?	
14.	Mention classification of low birth weight baby	
15.	Classify congenital heart defects	
16.	List four causes of late neonatal death	
17.	List the indications for neonatal resuscitation.	
18.	What is extrusion reflex?	
19.	Mention any two measures to prevent neonatal death	
20.	List two differences between term and preterm baby.	
21.	Define Low birth weight.	
22.	Mention four clinical manifestations of respiratory distress syndrome.	
23.	Define small for gestation and low birth weight baby	
24.	Define Kangaroo mother care.	
25.	Define weaning.	
26.	List any FOUR congenital CNS disorders.	
27.	List the factors leading to High risk newborn.	
28.	Define Spina bifida	
29.	Write any four nursing Care of newborn in Incubator	
30.	Define Icterus Neonatorum	
31.	Write the classification of high risk newborns.	
32.	What is meant by Ophthalmia neonatorum.	
33.	List four primary needs of a preterm baby.	
34.	Write four causes of Respiratory distress syndrome.	
35.	Write four congenital anomalies of gastro intestinal tract in children.	
36.	List any four characteristics of Preterm baby	
37.	List the danger signs in a newborn.
