8 Case Study :

XYZ Builders Ltd need to acquire the use of a crane for their construction business, and are considering buying or leasing a crane. The crane costs Rs.10,00,000, and is subject to the straight line method of depreciation to a zero salvage value at the end of 5 years. In contrast the lease rate is Rs.2,20,000/years to be paid in advance each year for 5 years. XYZ builders can raise debt at 14% payable in equal annual installments, each installment due at the beginning of the year. The company is in 50 percent tax bracket. Should it lease or buy the crane? (16 Marks)

Important Note : 1. On completing your answers, compulsorily draw diagonal cross lines on the remaining blank pages.
2. Any revealing of identification, appeal to evaluator and /or equations written eg, 42+8 = 50, will be treated as malpractice.
