ACKNOWLEDGEMENT

Before I begin, I would like to express my gratitude for all those who, knowingly or unknowingly, directly or indirectly helped and encouraged me to work on this project. One must acknowledge the role of God in their lives, as without his guidance and protection, the project would not have been complete.

Any academic assignment or venture cannot be accomplished without the guidance of the teachers. I am grateful to Prof. Ar. Vasanth K. Bhat, Prof, Ar. Anjana Biradar and our thesis Coordinator Prof. Ar. Priya Joseph for inspiring us to achieve success in all our endeavors. I am extremely happy to mention my special thanks to Prof. Ar. Shwetha Mattoo, my guide without whom this project work would not be realized, and our motivating thesis panel for their meaningful guidance, encouragement and supervision. I am extremely grateful to Ar. Anita Muthukrishnan, Ar. Mallikarjun Naralasetty and Prof. Ar. Pooja Ugrani for their guidance and support, they helped me understand the role architecture must play in the working of a Cruise Terminal.

The visits to the various Cruise Terminals within the region of Mumbai and Mangalore helped me realize the need for better facilities for tourism. I am grateful to the Administrative Managements, officers at Cruise Terminal in Mumbai: for all the informations held at a Terminal. Despite their busy schedule, they guided me into the Terminal, gave me an insight into the embarkation and disembarkation and encouraged me to design barrier free spaces.

I express my gratitude to the Staff members of Acharya's NRV School of Architecture for their help and support during my study over the last four years.

Words fail me to thank the never-ending contributions of my parents who have always been there with me showering kind support and encouragement, which makes me proud of being the person I am, today. The support from my friends, seniors and juniors cannot be forgotten as it has always helped me strive to be better.

Sharavani S Madabhavi

TABLE OF CONTENTS

1. SYNOPSIS

- INTRODUCTION TO THE PROJECT
 - WHAT IS CRUISE TOURISM
 - CRUISE TERMINAL
 - INDIAN SCENARIO

 - ✓ AIM OF THE PROJECT
 - ✓ MAJOR AND MINOR OBJECTIVES
 - ✓ SCOPE OF WORK
 - ✓ DESIGN APPROACH

2. CASE STUDIES

- MUMBAI CRUISE TERMINAL
- MANGALORE CRUISE TERMINAL

3. LITERATURE REVIEW

- KAI TAK CRUISE TERMINAL
- YOKOHOMA PASSENGER TERMINAL

4. ELECTIVES

- BUILDING AUTOMATION SYSTEM
- CONSTRUCTION TECHNIQUES

5. DESIGN STANDARDS

6. SITE ANALYSIS

7. DESIGN OF INTERNATIONAL CRUISE TERMINAL
