1. ABSTRACT

Home is where the waves crash and that's the only kind of place I'd choose to design first. The feeling of having the ocean in front of you and the mountain scapes around you, Oman gives an authentic pure Arab magic and glow to the place. Coastal areas are popular for their culture, food and relaxation mostly.

Tourists and families prefer a good weekend on beaches and a place where they could spend some time and have some entertainment and food along with it.

The idea of the proposal came from seeing the stone beach in Oman and realising there isn't a place where one could even sit down and have a cold drink in the scorching summer heat whilst enjoying the ocean. My vision was to create a creative space which looks subtle yet massive from outside and feel the difference in the interiors as you move every step forward.

Respecting the culture and surrounding the idea for "The Teal House" was born.

A Lounge and an Inn which gives you the feeling of having a BEACH DAY all day, a complete place to relax and have some good quality time.
