ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to the faculty at Acharya for guiding me through the long and intense period of my thesis. The preliminary focus given to me by my guide Ar. Sheeraz Zaidi played a vital role in the whole process.

Here also are special thanks to my teachers Prof. Anjana V.B. and Ar. Mallikarjun N. who inspired me and drove me till the very end. It was their encouragement and patience that shone as a beacon before me.

Furthermore, I am grateful for my fellow undergraduate students who stuck together as a team despite uncertain circumstances and supported each other in our theses.
