ACKNOWLEDGEMENT

I would like to express my gratitude towards my guide Ar. Madhurima Deshmukh, Acharya's NRV School of Architecture, for her invaluable support and advice for this thesis work all along the way.

I express my gratitude to the panel jurors of my internal reviews, who made me realise that I need to increase my speed of work and boosted me speed up.

The college life has taught me great lessons by making me responsible and given me best of memories which will be treasured forever. My friends, who have been my support and stood by my side strong in every ups and downs.

Lastly none of these would have been possible without my greatest pillars of my strength, my parents who have always believed in me and encouraged me in whatever decisions I have taken.
