ACKNOWLEDGEMENT

I would like to express my sincere gratitude to my Principal Prof. Sanjyot Shah, thesis guide Prof. Vaishali Kapoor and all the faculty members for guiding me throughout the thesis research and planning and have made this possible for me. Special mention to our former ANRVSA teachers who were so patient and calm to help me become this strong structure I am today.

I would also like to thank my friends and classmates who were constantly supporting and encouraging me to perceive more and more to reach my goal. With constant discussions about the ongoing process of the thesis projects, motivation was surely built up.

Last but not the least I would like to wholeheartedly thank my family for giving me the opportunity to achieve and fulfil my goals in life. Without them completion of the thesis project would be impossible.
