ACKNOWLEDGEMENT

I want to express my sincere gratitude to everyone who helped me with my undergraduate thesis project in architecture and provided me with advice. I want to start by expressing my gratitude to Ar. Shweta, my thesis advisor, for their unwavering support, inspiration, and helpful criticism. They have provided me with invaluable advice, and I appreciate all the time and effort they have put into my project.

I also want to express my gratitude to Ar. Sanjyot Shah, the institution's principal, for creating a supportive learning environment that helped me develop my skills and ensured the success of my project.

I also want to express my gratitude to my family, who have supported me emotionally and encouraged me throughout this difficult process. I appreciate their perseverance, comprehension, and drive. Last but not least, I would like to thank all of my friends Parikshith, Sneha, Yadunandan, Saranjana, Yuktha, and Sai Krishna for their support throughout this project and my time in architectural college. You made a worthwhile contribution, and I appreciate you helping me.

DECLARATION

This thesis title “Mythological theme park”, submitted in partial fulfillment of the requirement for the award of the under graduate of Bachelor of architecture is my original work to the best of my knowledge.

The sources for the various information and the data used have been duly acknowledged.

The work has not been submitted or provided to any other institution/ organization for any diploma/degree or any other purpose.

I take full responsibility for the content in this report and in the event of any conflict or dispute if any, hereby indemnify Acharya’s NRV School of Architecture and Visveshwaraya Technological University, Belagavi, and its official representatives against any damages that any raise thereof.

Pallavi

ABSTRACT

The proposed project mythological theme park to incorporate Indian frictional connect, cultural values, and design a leisure and entertainment space that is successful even with elements like quality, security, functionality, uniqueness, and escape. The vedas, upanishads, and puranas are among the oldest religious texts in existence, making them the oldest in the world. This allows us to travel back in time and learn about earthly life from those who came before us.

- Prominent scientists like Niels Bohr, Stephen Hawking, Albert Einstein, and many others have spoken about the relevance of the Indian scriptures to science and even daily life.

Our next generation can stay strong in a world where our morals and values are regularly questioned by providing them with a solid foundation and understanding of what made us who we are.

- Enough commercial growth, combined with amusement park amenities, to enable a perfect and ideal revenue model suitable for promoting public-private partnerships.

- The establishment of tourism-related businesses like hotels, lodges, and restaurants will start to alter the area's sociospatial structure.

- Mythological theme parks redefine leisure/tourism connections in pilgrim towns and create new heritage attractions.
