

KARNATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION AUGUST-2017
3rd Year Paper – II Paediatric Nursing

Duration: 3 hours

Time : 2.00 p.m. to 5.00 p.m.

Max. Marks: 75

SECTION-I**Give the meaning for the following**

1 x 4 = 4

- a) New Born b) Weaning c) Neonatal Jaundice d) Hernia

Fill in the blanks

1 x 4 = 4

- a) Shape of the Anterior Fontanelle is **DIAMOND**
 b) Inflammation of the middle ear is known as **OTITIS MEDIA**
 c) Deficiency of Vitamin 'A' causes **XEROPHTHALMIA**
 d) Route of DPT vaccine is **INTRA MUSCULAR**

I. Write short notes on any THREE of the following

4 x 3 = 12

- a) Advantages of Breast feeding
 b) Immunization schedule
 c) Principles of Growth and Development
 d) Oxygen Administration

. Answer the Following

2 + 3 + 4 = 9

- a) Define Hydrocephalus
 b) Write the causes and signs and symptoms of Hydrocephalus
 c) Write the Nursing Management of child with Hydrocephalus

. Answer the Following

2 + 3 + 4 = 9

- a) Define Intestinal Obstruction
 b) Write the causes and signs and symptoms of Intestinal Obstruction
 c) Write the Management of child with Intestinal Obstruction

SECTION - II**VI. Choose the correct answer and write from the following**

1 x 3 = 3

- a) Ophisthotonus position is seen in
 (i) Epilepsy (ii) Typhoid (iii) **Tetanus**
- b) Bluish discolouration of the skin is known as
 (i) **Cyanosis** (ii) Erythema Toxicum (iii) Acrocynosis
- c) Mental Retardation is suspected in children by
 (i) Poor feeding (ii) **Delayed Milestone** (iii) Normal Milestone

VII. State the following statements are TRUE or FALSE

1 x 4 = 4

- a) Worm infestation can lead to Anaemia in children **TRUE**
 b) Hemophilia is a bleeding disorder **TRUE**
 c) Blepharitis is a disease associated with Throat condition **FALSE**
 d) Head circumference of New Born is 31-32 cm. **FALSE**

VIII. Write short notes on any THREE of the following

4 x 3 = 12

- a) Preventive measures of Dengue
 b) Importance of Play
 c) Nursing Management of a child with Urinary Tract Infection
 d) Neonatal Convulsion

IX. Answer the Following

2 + 3 + 4 = 9

- a) Define Nephrotic Syndrome
 b) Write the causes, signs and symptoms of Nephrotic Syndrome
 c) Explain the Treatment and Management of Nephrotic Syndrome

X. Answer the Following

2 + 3 + 4 = 9

- a) What is Burns?
 b) Write the causes of Burns
 c) Discuss in detail the Nursing Management of a child with Burns

OR

- a) Define Pneumonia
 b) Write the causes & types of Pneumonia
 c) Write the management of a child with Pneumonia

KARNATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION - August 2016
3rd Year Paper – II Paediatric Nursing

Time: 3 hours

SECTION-I

Max. Marks: 75

- I. Write the Meaning for the Following: 1 x 4 = 4
- a. Club Foot b. Anthropometry c. Lanugo d. Enuresis
- II. Fill in the Blanks: 1 x 4 = 4
- a. The route for BCG vaccination is IM
- b. Child is able to hold head at 3 months
- c. the narrowing part of aorta is called as coarctation
- d. Umbilical cord has 2 vein and 1 arteries
- III. Write short notes on any Four of the following: 4 x 4 = 16
- a. Role of paediatric nurse in child care b. Neonatal resuscitation
- c. Emerging challenges in paediatric nursing d. Child's reaction to hospitalization
- e. Nursing care of child with failure to thrive
- IV. 1 + 2 + 4 = 7
- a. Define Tetralogy of Fallot
- b. List the clinical manifestations of Tetralogy of Fallot
- c. Explain the nursing management of child with Tetralogy of Fallot
- Or
- a. Define Pulmonary stenosis
- b. List the clinical manifestations of pulmonary stenosis
- c. Explain the nursing management of a child with pulmonary stenosis
- V. 1 + 6 = 7
- a. Define Cerebral palsy.
- b. List the causes and clinical manifestations of cerebral palsy
- SECTION – II
- VI. Choose the correct answer from the following: 1 x 3 = 3
- a. Squint or cross eye is known as
- i. Opacity ii. Glaucoma iii. Cataract iv. Strabismus
- b. Green stick fracture is more common in
- i. Young children ii. Old man iii. Paralysed child iv. Child with rheumatoid arthritis
- c. Which one of these is hereditary disorder
- i. Purpura ii. Thalassaemia iii. Cardiac failure iv. Whooping cough
- VII. State whether the following statements are True or False: 1 x 4 = 4
- a. Large head is also known as microcephaly.
- b. Spina bifida is one of the most uncommon anomalies of children.
- c. Lumbar puncture procedure is used to diagnose the meningitis.
- d. Retrolental fibroplasia are also known as retinopathy of prematurity.
- VIII. Write short notes on any Four of the following: 4 x 4 = 16
- a. Diabetes Insipidus b. Care of child in phototherapy
- c. Respiratory distress syndrome d. Management of a child with communication disorder
- e. Prevention of home accident in toddlers
- IX. 1 + 2 + 4 = 7
- a. Define Rheumatoid arthritis
- b. List the causes and clinical manifestations of rheumatoid arthritis
- c. Explain the nursing management of a child with rheumatoid arthritis
- X. 1 + 2 + 4 = 7
- a. Define Appendicitis
- b. List the clinical manifestations of appendicitis
- c. Explain the pre and post operative care of a child with appendicitis

KARNATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION - August 2015
3rd Year Paper – II Paediatric Nursing

Time: 3 hours

SECTION-I

Max. Marks:75

- I. Give the meaning of the following
 a) Infant b) Adolescent c) Vernix Caseosa d) Premature Baby **1x4=4**
- II. Fill in the blanks
 a) The Anterior Fontanelle otherwise known as _____ **1x4=4**
 b) The collection of blood between the skull bones and the periosteum is termed as _____
 c) The child gives social smile at the age of _____ months
 d) Physiological Jaundice appears _____ 24 hours of birth
- III. Write short notes on any THREE of the following **4x3=12**
 a) Vomiting in children and its managements b) Under Five Clinic.
 c) Physiological Jaundice d) Care of a child in incubator
 e) Protein Energy Malnutrition
- IV. a) Define Hydrocephalus. **1+4+4=9**
 b) List the causes and clinical manifestations of Hydrocephalus.
 c) Discuss the role of a nurse in the management of a child with Hydrocephalus.
- V. a) Define Renal Failure. **1+4+4=9**
 b) Enumerate the causes, signs and symptoms of Renal Failure.
 c) Explain the nursing management of a child with Renal Failure.

SECTION – II

- VI. Choose the correct answer and write **1x3=3**
 a) Eating of substances other than food is
 i) Substance abuse ii) Bulimia iii) Pica
 b) Stuttering refers to
 i) Speech disorder ii) Vision disorder iii) Hearing disorder
 c) Megaloblastic Anaemia is a deficiency of
 i) Vitamin A ii) Vitamin B₁₂ iii) Vitamin D
- VII. State whether the following statements are TRUE or FALSE **1x4=4**
 a) Tetany is a endocrine disorder.
 b) Hemophilia is a bleeding disorder.
 c) Typhoid fever is caused by Salmonella Typhi.
 d) Protein Energy Malnutrition causes severe wasting of muscles in children.
- VIII. Write short notes on any THREE of the following **4x3=12**
 a) Nursing management of a child with Convulsions.
 b) Nursing management of a child with fracture.
 c) Nurse's role in the collection of Specimen in children.
 d) Common skin infections and their prevention.
 e) Child guidance clinic.
- IX. a) Define Epilepsy. **1+4+4=9**
 b) Explain the stages of Epilepsy.
 c) Discuss the management of a child with Epilepsy.
- X. a) Define Rheumatic fever **1+4+4=9**
 b) List the causes and clinical manifestations of Rheumatic Fever
 c) Explain the medical and nursing management of a child with Rheumatic fever.

OR

- a) Name the causative organism of Tuberculosis.
 b) List the signs and symptoms and diagnostic measures of Tuberculosis.
 c) Discuss the Medical and Nursing management of Tuberculosis.

KARNATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
GNM ANNUAL EXAMINATION - AUGUST 2014
3rd Year Paper – II Paediatric Nursing

Time: 3 hours

Max. Marks:75

SECTION-I

- I. Give the meaning of the following**
- a) Warm chain
 - b) Infant
 - c) Intussusception
 - d) Acrocyanosis
- 1x4=4**

- II. Fill in the blanks**
- a) The period from birth to 28 days of life is called _____
 - b) Child labour Act was initiated in the year _____
 - c) The weight of an infant doubles at the age of _____
 - d) _____ is the disease caused by deficiency of protein in the diet.
- 1x4=4**

- III. Write short notes on any THREE of the following**
- a) Physiological Jaundice
 - b) Hypothermia in Neonates
 - c) Immunization schedule
 - d) Prevention of Accidents among children.
- 4x3=12**

- IV.**
- a) Define Pyloric Stenosis.
 - b) List the clinical manifestations and complications of Pyloric Stenosis.
 - c) Discuss the pre and post operative care of a child, posted for the surgery of Pyloric Stenosis.
- 1+4+5=10**

OR

- a) Define Congenital Anomaly
- b) List the types of congenital Anomalies
- c) Discuss the role of a nurse in the care of a child with Cleft lip.

- V.**
- a) Define low birth weight baby.
 - b) Explain the nursing management of a low birth weight baby.
- 2+6=8**

SECTION – II

- VI. State whether the following statements of TRUE or FALSE**
- a) Lateral Curvature of the spine is called as Lordosis
 - b) Strabismus is also called as crossed eye appearance.
 - c) Scurvy is the deficiency disease of vitamin 'B'
 - d) Malaria is an Arthropode borne infection caused by plasmodium vivax.
- 1x4=4**

- VII. Choose the correct answer and write.**
- a) Oral polio vaccine is a type of
 - i) Live Attenuated vaccine
 - ii) killed vaccine
 - iii) Toxoid
 - b) Night blindness is caused by the deficiency of
 - i) vitamin B
 - ii) vitamin D
 - iii) vitamin A
 - c) The drug of choice for neonatal convulsion is
 - i) Phenobarbitone
 - ii) Valporate
 - iii) Phenyltoin
- 1x3=3**

- VIII. Write short notes on any THREE of the following ,**
- a) Management of child with HIV infection
 - b) Convulsions in Neonates
 - c) Management of urinary tract infection.
 - d) Preventive measures of Dengue fever.
 - e) Management of a child with Lukaemia
- 4x3=12**

- IX.**
- a) Define Meningitis.
 - b) List the causes, signs and symptoms of meningitis.
 - c) Explain the Nursing management of a child with Meningitis.
- 2+2+4=8**

- X.**
- a) Define Appendicitis.
 - b) List the causes, signs and symptoms of Appendicitis.
 - c) Discuss the nurse's role in the pre and post operative care of the child, posted for Appendicectomy
- 1+4+5=10**

Reg. No.

KARNATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
FEBRUARY 2014 GNM SUPPLEMENTARY EXAMINATION
3rd year Paper – II Paediatric Nursing

Time: 3 hours

Max. Marks: 75

- I. Give the meaning of the following** **1x5=5**
a) Infant b) Hernia c) Day care centres d) Mongolian spots e) Hyperbilirubinemia
- II. Fill in the blanks** **1x3=3**
a) Purulent discharge from the eyes of a new born is known as _____
b) Child is able to hold head at _____ months.
c) _____ is the failure of the Oesophagus to develop as a continuous canal
- III. Write short notes on any THREE of the following** **4x3=12**
a) Concept of preventive Paediatrics b) Advantages of Breast Feeding
c) Growth and development of a Toddler d) Spinabifida
- IV. a) Define Hypospadiasis.** **2+6=8**
b) Explain the Surgical and nursing management of a child with Hypospadiasis.
- OR**
- a) Define Ventricular Septal defect. **2+2+4=8**
b) List the clinical manifestations of VSD
c) Explain the Nursing management of a child with VSD.
- V. a) What is cleft lip and cleft palate?** **2+2+6=10**
b) Write the signs and symptoms
c) Explain the treatment and Nursing management of a child with cleft lip and cleft palate.

SECTION – II

- VI. State whether the following statements are TRUE or FALSE** **1x3=3**
a) Lumbar Puncture procedure is used to diagnose meningitis. (✓)
b) The onset of disease for Juvenile diabetes mellitus is before 5 years of age.
c) Typhoid is caused by Salmonella Typhi. (✓)
- VII. Choose the correct answer and write** **1x4=4**
a) Scabies in children is caused by
i) Mites ii) Fungus iii) Virus
b) Rubella can be prevented by administering
i) MMR ii) DPT iii) BCG
c) Tetanus Neonatorum is caused by
i) Staphylococcus ii) Vibrio iii) Clostridium Tetani
d) Mental retardation is suspected in children by
i) Delayed mile stones ii) Poor feeding iii) Normal mile stones
- VIII. Write short notes on any THREE of the following** **4x3=12**
a) Oral re-hydration therapy. b) Common worm infestation in children
c) Down's syndrome d) Nursing management of a child with enteric fever
- IX. A 10 year old child is admitted with Haemophilia.** **2+8=10**
a) Define Haemophilia.
b) Explain the Medical and Nursing management.
- OR**
- a) Define Nephrotic syndrome. **2+3+5=10**
b) List the causes and signs and symptoms
c) Explain the Nursing management of a child with nephrotic syndrome
- X. a) What is Otitis media?** **1+2+5=8**
b) Write the signs and symptoms.
c) Explain the treatment and management.
- XXXXXXXXXXXXXXXXXXXX

KARNATAKA STATE DIPLOMA IN NURSING EXAMINATION BOARD
SEPTEMBER 2013 GNM ANNUAL EXAMINATION
3rd year Paper – II Paediatric Nursing

Time: 3 hours

Max. Marks: 75

- I. Give the meaning of the following** 1x4=4
 a) Apgar Score b) Hypoglycaemia c) Weaning d) Cleft Palate
- II. Fill in the blanks.** 1x4=4
 a) A tiny white papillae seen on the nose and chin of the new born is _____
 b) Normal respiratory rate of a Newborn is _____
 c) Temper tantrums are common among _____
 d) In children, Tumors of the kidney is termed as _____
- III. Write short notes on any THREE of the following** 4x3=12
 a) Nursing Management of Neonatal convulsions.
 b) Factors affecting growth and development.
 c) Immunization Schedule.
 d) Prevention of Accidents in school age-children.
 e) National child labour policy
- IV. a) Define preterm baby.** 2+3+5=10
 b) List the characteristics of preterm baby.
 c) Explain the nursing management of a preterm baby.
- OR**
- a) Define patent ductus arteriosus.
 b) Write the clinical manifestations.
 c) Explain the treatment and nursing management of a child with patent ductus Arteriosus.
- V. a) Define Neonatal Hypoglycaemia.** 2+6=8
 b) Explain the Medical and Nursing management of a Neonate with Hypoglycaemia.
- SECTION – II**
- VI. State whether the following statements are TRUE or FALSE** 1x4=4
 a) Dysphonia is a disorder of Locomotion.
 b) Deficiency of Vitamin 'C' leads to goiter.
 c) Plantar flexion of the foot in which the toes are fixed lower than the heel is Talipes Calcaneus.
 d) Typhoid fever is caused by Salmonella Typhi.
- VII. Fill in the blanks** 1x3=3
 a) Whooping cough is caused by _____
 b) Conjunctivitis is inflammation of the _____
 c) Decreased platelet count is known as _____
- VIII. Write short notes on any THREE of the following** 4x3=12
 a) Care of a child after Tonsillectomy.
 b) Care of a visually handicapped child.
 c) Protein energy malnutrition.
 d) Nursing care of a child with infantile seborrheic dermatitis
 e) Juvenile Delinquency.
