8 Case Study: (compulsory)

The US \$5 billion ABC group had a spare parts distribution that supplied spare parts to a member of automobile manufacturers in India. During the mid-nineties, the company planned to expand its spare parts business. However, the huge potential and opportunities in Third Party Logistics (3PL) made ABC open its logistics division, ABC logistics in 1997. ABC Logistics initially provided the warehousing facility to its clients, but expanded rapidly to provide inbound and outbound logistics to Indian automobile manufacturers such as Ashok Leyland, Maruti Suzuki, etc.

Questions:

- a. The ABC group separated its logistics division as a wholly new subsidiary in 1997 to start a global supply chain. Discuss the reasons behind the steps taken by the company. (05 Marks)
- b. Suggest the logistic model to be followed by ABC. (05 Marks)
- c. What are the challenges in inbound and outbound logistics? (05 Marks)
- d. Mention about distribution network in practice. (05 Marks)

Important Note : 1. On completing your answers, compulsorily draw diagonal cross lines on the remaining blank pages.
2. Any revealing of identification, appeal to evaluator and /or equations written eg. 42+8 = 50, will be treated as malpractice.
