ACKNOWLEDGEMENT

We express our sincere thanks to almighty god for his grace, his kind help and blessing throughout the study. His felt presence gave us strength to complete this project successfully. We are deeply privileged and greatly honoured to express our heartiest gratitude to Prof. Devi Nanjappan, principal of Smt. Nagarathnamma College of Nursing, Bengaluru 107, for the constant support and encouragement in helping to complete our research study.

Our sincere and whole hearted gratitude to our guide Mrs. Ramya B, Assistant Professor, Department of Child Health Nursing of Smt. Nagarathnamma College of Nursing, for her invaluable constant support, guidance and for enlightening us with various ideas and information while doing this project.

We are proudly indebted to all the teaching faculties of Smt. Nagarathnamma College of Nursing for their kind cooperation, invaluable suggestions and constant support for improving our knowledge to conduct our research study.

We are grateful to all the supporting staff and librarian for their kind cooperation while conducting research project.

We are grateful to principal of Smt. Nagarathnamma College of Nursing for allowing us to conduct research in her institution.

We thank our parents for their continuous blessings and constant support for always being there for us.

Lastly, we would like to express our hearty thanks to our friends who helped us to make this research possible.

ABSTRACT

Title- “IMPACT OF VIDEO ASSISTED TEACHING ON KNOWLEDGE REGARDING GOOD TOUCH AND BAD TOUCH AMONG SCHOOLERS OF RC INTERNATIONAL SCHOOL, RURAL BENGALURU.”

Keywords:

Good touch and bad touch

Among schoolers

Video Assisted Teaching

Aims:

- To educate children about the differences between good touch and bad touch
- To prevent child sexual abuse and promote healthy relationships
- To develop effective strategies for teaching children about good touch and bad touch
- To understand the impact of good touch and bad touch on children's physical, emotional, and psychological well-being

Objectives:

- 1) To assess the level of knowledge on Good Touch and Bad Touch
- 2) To assess the effectiveness of video assisted teaching on good touch and bad touch
- 3) To find the association between the post-test knowledge score with selected demographic variables.

METHODOLOGY:

Descriptive approach used to collect data from 40 subjects selected by purposive sampling technique through non probability sampling approach consisting 2 sections.

Section A: Demographic variable consisting of 9 items.

Section B: Structured questionnaire for assessing knowledge level consisting of 15 items.

RESULT:

The majority of respondents 92.5 had inadequate knowledge of good touch and bad touch.
