ACKNOWLEDGEMENT

I would like to express my profound gratitude to the individuals who have supported and guided me throughout my architectural thesis journey.

Firstly, I would like to thank my family, whose unconditional love and support have been my driving force. Specifically, I thank my parents for their selfless encouragement and unwavering belief in me.

I am deeply indebted to my thesis guide, Ar. Sushma Madhusudan Betgeri, whose expert guidance, constructive feedback, and unwavering encouragement have been instrumental in shaping my project. Her dedication and patience have significantly contributed to my growth as a student and a designer.

I extend my sincere appreciation to our Principal, Prof. Ar. Sanjyot Shah, for fostering a conducive learning environment at Acharya NRV School of Architecture, which has enabled me to explore my potential.

Additionally, I would like to acknowledge the support provided by my dear friends. Their presence, encouragement, and camaraderie have made this journey enjoyable and memorable.

Lastly, I appreciate the resources and facilities provided by Acharya Institutes, which have been valuable in completing this thesis

Thank you.

ABSTRACT

VISTARA, is a holistic design for an Agri-logistics hub and terminal market that bridges the gap between farmers and consumers, reducing intermediaries, food transport, and waste while ensuring fair farmer benefits. Rooted in its context, the design harmonizes with the local landscape, culture, and socio-economic fabric. By integrating public amenities, recreation, and cultural elements, it transforms the market into a vibrant, community-centric hub active beyond trading hours. The project redefines wholesale markets as lively spaces fostering economic growth, social engagement, and community interaction.
